Testimony

- We praise God for keeping us well and alive, especially for sending an angel to rescue me on a busy road. I was in a bus that was deadlocked in traffic. Suddenly, I sensed severe chest pain. The bus was unable to move forward or backward. It just stopped. I tried to walk a little, but I was unable because of severe pain. A stranger stopped to help me and asked me to sit in his pick-up truck. He was traveling from another state and had been stuck in traffic for five or six hours. This person was from the highest class of Brahmin. They don't mix with others. He took me to the nearest town where I was able to get my medicines. This is the story of what God has done for me in the past week. I am still alive today. God has protected me throughout my life. He loves us. He is faithful. He will never leave us. This is one of the biggest miracles of my life and I praise him for this.
